

511 impregnator sealer

Benefits:

- New Anti-Microbial Ingredient
- Non-Flammable
- One Formula for the Entire USA
- 20 Year Warranty

The Best Just Got Better!

Miracle Sealants, manufacturer of "The Original Impregnator" 511 Impregnator, is proud to announce the addition of an ANTI-MICROBIAL agent into the product. Testing demonstrates this new addition allows 511 Impregnator to excel at resisting mold, mildew & algae growth as well as the growth of bacterial odors. 511 Impregnator now guards against degradation from other microorganisms. 511 Impregnator is extremely effective on exterior projects where moisture & humidity are an issue and can prevent the exterior growth of fungi.

The same trusted product you have come to know for the past 24 years raises the bar once again and adds a new dimension to water repellency, oil repellency, stain repellency, slip protection, vapor transmission, freeze/thaw protection, salt-ion repellency, performance and durability all while maintaining the natural look.

511 Impregnator has always been made using NON-FLAMMABLE solvents. Easy to apply with coverage up to 1250 square feet per quart, 511 Impregnator can be used on all natural stone including but not limited to: marble, granite, limestone, travertine, slate, sandstone, cantera, shell stone, blue stone, lapis, tiger eye, malachite, etc. All tiles including but not limited to: quarry tile, porcelain tile, ceramic tile, glazed ceramic tile, glass tile and clay tile. Moreover, brick, concrete, masonry and all types of cement/concrete building surfaces. And of course, ALL types of grout including both cement and epoxy.

One Product for all your protection needs!
