Two Items for the Price of One!

Miracle Sealants, manufacturer of "The Original Impregnator" 511 Impregnator, is proud to announce the introduction of the new Miracle Sealer Applicator & Tray. It can be utilized with all 511 products, as well as other sealers and enhancers.

The Miracle Sealer Applicator & Tray is easy-to-use and disposable. It has a unique foam pad that holds the sealer/enhancer within the pad. This foam aids in evenly distributing the product over the surface being treated and allows for a more controlled application.

In addition to the unique pad, the Sealer Applicator & Tray has a unique tray designed to hold the sealer/enhancer in it. Just pour the sealer/enhancer into the tray and run the Applicator through it to absorb the product. It has raised ribs that aid in extracting the excess sealer from the Applicator, preventing dripping and allowing for the most cost effective application of the product.

The Miracle Sealer Applicator & Tray is for use on all natural stone and tile including but not limited too: marble, granite, limestone, travertine, slate, sandstone, cantera, concrete, terrazzo, saltillo, shell stone, bluestone, lapis, quarry tile, ceramic tile, porcelain ceramic tile, glazed ceramic tile, mosaic tile, glass tile, acrylic tile and more...
