

“These kind of events provide us with a great way to thank all of the people who sell and use Miracle Sealants Products..”

Daytona Prototype and New Miracle Sealants Products Star in Contractor BBQs

During the week leading up to the Long Beach Grand Prix, Miracle Sealants hosted a series of Contractor Barbeques where great food and fun definitely played a supporting role to the real stars of the event. Taking center stage was the Miracle backed SunTrust Racing Pontiac Riley DP, offering an opportunity to get up close to the 500 horsepower racer. Starring opposite the SunTrust machine were the newest products from Miracle Sealants including the aerosol Impregnator 511 Spray-on Grout Sealer.

The week kicked off with Dal-Tile on Tuesday in Anaheim, California where an extra special appearance was made by Miracle Sealants supported driver Jonathan Bomarito. It was unfortunately the only one of the events that Bomarito could attend given that later the same week he would kick off his 2008 racing season in the Atlantic Championship Series at the Toyota Grand Prix of Long Beach.

Arizona Tile was up next on Wednesday in Palm Desert, California before returning to Anaheim on Thursday and Friday to host Bedrosian Tile & Marble followed by Emser Tile & Marble.

“These kind of events provide us with a great way to thank all of the people who sell and use Miracle Sealants products while giving them an opportunity to enjoy something out of the ordinary in the form of seeing the racecar up close and spending time with a driver. We certainly hope to do more of these with our other distribution partners in the future.”
