Polishing Powder For
- Marble
- Limestone
- Terrazzo
- Travertine
- Other Natural Stone

Special Features
- No Oxalic Acid
- Easy to Use
- Interior & Exterior
- Fast Acting
- Cost Effective

PRODUCT DESCRIPTION
KEEP OUT OF REACH OF CHILDREN. Water Ring & Etch Remover polishing powder is a unique blend designed to enhance the natural shine of natural stone and terrazzo. Water Ring & Etch Remover will remove light scratches, water rings and acid etch marks. Water Ring & Etch Remover is an effective means of maintaining the factory finish of marble, travertine, limestone, terrazzo and other natural stone surfaces. Unlike recrystallization or vitrification, Water Ring & Etch Remover does not change the surface composition of the stone. Water Ring & Etch Remover is an easy to use polishing process that has been used in stone factories and in the field for decades. Water Ring & Etch Remover is great for ongoing maintenance, as well as the final polishing step in any stone restoration procedure. Heavy scratches and etch marks may need to be honed with the Mira Hone or Pyramid Diamond Abrasive System prior to using Water Ring & Etch Remover.

Sample Testing
Due to the differences of each material, several inconspicuous test patches should be completed to assure maximum performance. User must determine suitability of the product for their intended use.

Special Precaution & Protection
Always protect neighboring surfaces including masonry, wood, carpet, metal, landscaping and other non masonry surfaces.

Water Ring & Etch Remover should not be left on the surface for any length of time without constant buffing action. If buffing is stopped Water Ring & Etch Remover must be immediately picked up to avoid burning. Place the floor or hand machine on a plastic or teflon sheet when not in use. Water Ring & Etch Remover is not recommended for granite or synthetic surfaces.

Water Ring & Etch Remover can be run through a sifter for a more consistent powder.

APPLICATION INSTRUCTIONS
Read entire label and PDS before using.

All previous applied sealers, coatings and/or waxes must be removed using Mira Strip or H2O Strip as directed.

Using a Marble Master 1000 (175 rpm, 150 lbs.) floor machine equipped with a Mira Pad, white polishing pad or a tampico brush will provide optimum results. Wet a small area (2' x 4') with clean water. Sprinkle Water Ring & Etch Remover on the area and buff making slow, even passes. Add water or Water Ring & Etch Remover as needed to maintain a watery/milky slurry. DO NOT ALLOW Water Ring & Etch Remover SLURRY TO DRY ON THE SURFACE. Buff the stone for 1 - 2 minutes or until desired polish is achieved. Additional Water Ring & Etch Remover may be used to increase polish. Be careful not to buff too long in any given area as this may create a burn. After polishing, rinse the stone thoroughly with the appropriate Miracle Cleaner as directed. Agitate with a soft brush and remove using a wet vacuum. This procedure is essential for neutralization of the polished surface.

Counters: Use a hand machine (600 - 800 rpm) equipped with a Mira Pad, white pad or tampico brush and use in the same manner as with floors.

Walls: Wet the small area to be worked and sprinkle the Water Ring & Etch Remover directly onto the polishing pad or brush. Buff the walls in small sections. Be careful to protect neighboring areas from dripping of the Water Ring & Etch Remover solution.

Small Areas: Water Ring & Etch Remover can be worked by hand for very small areas or trouble spots. Follow the same procedure as above, buffing with a small white pad and using rubber gloves. This method can effectively remove many light scratches, water rings and etch marks while restoring desired luster to those very small and hard to reach areas.

Heavy Duty Cleaning: Use Pre-Cast Concrete Cleaner, GCFR or Liquid Poultice as directed.

Light Cleaning: Use Mira Clean #1, Stone Cleaner Preserver or Counter Kleen as directed.

Water, Stain & Slip Protection
Application of Miracle Penetrating Sealer/Impregnator will reduce penetration of all staining materials and make the surface less slippery.

Color and Gloss Enhancement
For added color with “Textured and Non polished” surfaces, Mira Matte may be used. For porous type “Paver”, Saltillo & Terra Cotta Paste & Liquid Wax, Stone Polish, Stone Polish Preserver, Granite Brite, Mira Brite, Mira Dust, Marble Conditioner or Tile Brite may be used as directed.

Polish Enhancement
Periodically use Mira Dust, Marble Conditioner, Mira Brite, Mira Pad or Granite Brite as directed.

Mold, Mildew and Bacteria Sanitation
For best results in killing mold, mildew, bacteria and other micro organisms, use Miracle Disinfectant as directed.

Coverage
Coverage will vary depending on the density, porosity, texture, surface absorption, weather, time solution left on surface and application methods. Used as directed, Water Ring & Etch Remover will do approximately 13 - 28 sq. meters per pound or 3 - sq. meters per 4 oz. bottle.

MAINTENANCE
For ongoing maintenance instructions please refer to Miracle Sealants Care Guide, Refer to the Miracle Sealants Product Recommendation Chart for specific product recommendations.

Storage
Store Water Ring & Etch Remover in the original upright container properly sealed and unmixed. Stored at 77°F (25°C), Water Ring & Etch Remover will have a shelf life of 12 months. Do not allow to freeze.

Technical Support
For additional technical support, contact Miracle Sealants Company at 1-800-350-1901 or 626-443-6433 ext. 3013

Office Hours
Monday - Friday from 8:30 am - 5:00 pm PT.
1-626-443-6433 or 1-800-350-1901 • Fax: 1-626-443-1435
website: www.miraclesealants.com

Product Damaged During Transportation
If product is damaged during transportation contact Info Trac @ 1-800-535-5053

Additional Products
Miracle Sealants Company offers a complete line of water & stain repellents, sealers, cleaner, polishing compounds, diamond abrasives, machinery and accessories for the tile, stone, concrete, metal, fabric and carpet professional or do-it-yourself specialist.

Caution
Use in a well ventilated area. This product contains mild corrosive and must be used only as directed. KEEP OUT OF REACH OF CHILDREN. Avoid contact with food or beverages and risk of accidental ingestion. Do not transfer to other bottles or containers. Protect skin and eyes. If exposed, wash or flush with water. Keep small children and pets out of area until product or surface has thoroughly dried. For more information refer to the MSDS.

Warranty
Instructions are a condensed guide and should not be considered complete. In the event of failure, the only obligation of Miracle Sealants Company shall be to replace such products proven to be defective. Before using, user shall determine the suitability of the product for their intended use. User assumes all risks and liability whatsoever in connection n therein. Neither seller nor manufacturer shall be liable for any injury or inability to use this product.
1. IDENTIFICATION

Product Identifier
Product Name Water Ring & Etch Remover

Other means of identification
SDS # MSC-026
Product Code OMB No. 1218-0072

Recommended use of the chemical and restrictions on use
Recommended Use Polishing powder.

Details of the supplier of the safety data sheet
Supplier Address
Miracle Sealants Company
12318 Lower Azusa Road
Arcadia, CA 91006

Emergency Telephone Number
Company Phone Number 1-626-443-6433 (Phone)
1-626-443-1435 (Fax)
24 Hour Emergency Phone Number 800-350-1901
Emergency Telephone (24 hr) For product spills, leaks or exposures call:
Infotrac 1-800-535-5053 (North America) or 1-352-323-3500 (International)

2. HAZARDS IDENTIFICATION

Appearance Fine, granular white crystals  Physical State Solid, granular crystals  Odor Odorless

Classification

Signal Word
Danger

Hazard Statements
Causes severe skin burns and eye damage
**Precautionary Statements - Prevention**
Use only outdoors or in a well-ventilated area
Do not breathe dust/fume/gas/mist/vapors/spray
Wash face, hands and any exposed skin thoroughly after handling
Wear protective gloves/protective clothing/eye protection/face protection

**Precautionary Statements - Response**
Immediately call a POISON CENTER or doctor/physician
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
Immediately call a POISON CENTER or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Call a poison center or doctor/physician if you feel unwell
Immediately call a POISON CENTER or doctor/physician
IF SWALLOWED: rinse mouth. Do NOT induce vomiting

**Precautionary Statements - Storage**
Store locked up

**Precautionary Statements - Disposal**
Dispose of contents/container to an approved waste disposal plant

**Other Hazards**
Harmful to aquatic life with long lasting effects

</tbody>
</table>

*If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.*

### 4. FIRST-AID MEASURES

**First Aid Measures**

**General Advice**
Provide this SDS to medical personnel for treatment.

**Eye Contact**
Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention.
Skin Contact
Wash off with soap and water. If irritation persists, call physician.

Inhalation
Remove to fresh air. If victim is unconscious, seek immediate medical attention. Call a poison center or doctor/physician if you feel unwell.

Ingestion
Do not induce vomiting. Call physician or Poison Control Center immediately. Rinse mouth.

Most important symptoms and effects

Symptoms
Eyes: Material is ocular irritant & may cause cornea damage. Healing is usually complete if first aid measures have been promptly initiated.
Skin: May cause irritation to skin.
Ingestion: May cause systemic poisoning and cause severe damage to the esophagus and stomach. May cause hypocalcemia, possibly fatal.
Inhalation: Irritation, may cause coughing & difficult breathing. Excessive inhalation may cause systemic poisoning.

Indication of any immediate medical attention and special treatment needed

Notes to Physician
Medical conditions generally aggravated - Hypocalcemia, liver or kidney diseases.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media
Water fog, CO2, alcohol or dry chemical.

Unsuitable Extinguishing Media
Not determined.

Specific Hazards Arising from the Chemical
Product is not flammable.

Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions
Wear protective clothing as described in Section 8 of this safety data sheet.

Environmental Precautions
See Section 12 for additional Ecological Information.

Methods and material for containment and cleaning up

Methods for Containment
Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up
Promptly sweep or shovel material into an empty container, avoiding dusty conditions. Complete clean-up by flushing residue with plenty of water. Discard any product, residue, disposable container or liner in full compliance with federal, state, and local regulations. For waste disposal, see section 13 of the SDS.

7. HANDLING AND STORAGE

Precautions for safe handling
Advice on Safe Handling
Handle in accordance with good industrial hygiene and safety practice. Wash face, hands, and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing and eye/face protection. Avoid contact with skin, eyes or clothing. Do not breathe vapors or spray mist.

Conditions for safe storage, including any incompatibilities

Storage Conditions
Store in a cool, dry place, away from food or feed product. Keep out of the reach of children. Keep container tightly closed. Store locked up.

Incompatible Materials
Strong oxidizers, acids and alkalis, aldehydes, ethers and amines.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>NIOSH IDLH</th>

<td>TWA: 2.5 mg/m³ F</td>
<td>TWA: 2.5 mg/m³ F</td>
<td>TWA: 2.5 mg/m³ F</td>
</tr>
</tbody>
</table>

Appropriate engineering controls

Engineering Controls
Mechanical ventilation or local exhaust ventilation if available.

Individual protection measures, such as personal protective equipment

Eye/Face Protection
Tight fitting, splash proof safety glasses.

Skin and Body Protection
Protective gloves: Plastic or rubber, chemical resistant
Protective clothing or equipment: Chemical resistant clothing.

Respiratory Protection
Ventilate by opening all doors and windows. If exposure above the TLV or PEL require a NIOSH approved respirator equipped for the exposure or suitable respiratory protection per 29 CFR 1910.134 is required.

General Hygiene Considerations
Work hygienic practices: Wash hands thoroughly before handling foodstuffs, liquids or tobacco products. Use common sense and care around chemicals. Never mix this product with other chemicals. Consult your supervisor for all other hygienic and safety practices. All practices depend on your specific business. Directions for use normally found on label which will dictate engineering and control measures. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product.

10. STABILITY AND REACTIVITY

Reactivity
Not reactive under normal conditions.

Chemical Stability
Stable under recommended storage conditions.

Possibility of Hazardous Reactions
None under normal processing.

Hazardous Polymerization
Polymerization can occur.

Conditions to Avoid
Heat and any open flame. Keep from freezing.

Incompatible Materials
Strong oxidizers, acids and alkalis, aldehydes, ethers and amines.

Hazardous Decomposition Products
NH3 and HF.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information

Eye Contact
Causes severe eye damage.

Skin Contact
Causes severe skin burns.

Inhalation
May cause irritation to the mucous membranes and upper respiratory tract.

Ingestion
Ingestion causes acute irritation and burns to the mucous membranes of the mouth, trachea, esophagus and stomach.

Not determined
13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.

14. TRANSPORT INFORMATION

Note
Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.

DOT
Please refer to the Bill of Lading receiving/documents for up-to-date information

IATA
Please refer to the Bill of Lading receiving/documents for up-to-date information

IMDG
Please refer to the Bill of Lading receiving/documents for up-to-date information
